HAND SANITIZERS

Real Clean Hand Sanitizer Gel & Liquid

- No Rinsing
- No Towel
- No harmful residue

REAL CLEAN HAND SANITIZERS

It ensures good cleaning and sanitization of hands and other surface objects as well as stops contamination and germs that cause illnesses.

Help decrease and eliminate infectious agents on hands when water is not accessible. It

eliminates/kills 99.9 germs causing illnesses.

Helps stop bacterial contamination that may be caused by hands contact during patient care, food preparation or consumption.

It cleans and shines glass and mirrors. The sanitizer provides

complete clean on the lenses on the eyeglasses without leaving any residue. Rub with a drop on both sides of lenses and wipe using a paper towel.

Remove diaper odor on hands after changing a sticky odor diaper. Wash your hands thoroughly and then use REAL CLEAN SANITIZER.

Cleans book covers and other object surfaces. There's a lot of hand contamination in the libraries and whenever books are shared. Squirt real clean hand sanitizer gel/liquid on the book cover. Use paper or cotton towel and rub it gently. This will kill germs and leave the books clean.●
